ABOUT ME

I've worked in marketing and sales for several years, until I discovered that web development was my vocation, hence why I decided to study programming.

I am currently a web developer seeking to learn more about this vast profession. I am studying full stack web development, close to finishing it. I am also doing courses on C#, .net, and databases to complement my knowledge.

My goal is to be part of a company that will allow me to continue to grow professionally as a programmer.
